Hi Teacher.
After all, you were the one who educated me and taught me all that fine vocabulary! I could elaborate on what a great Dad you are - cause you are - but I won't. You might get conceited. Don't ever forget that you've got to be one and more out of life. It ought to be a turn-about SK-70. Also our Don't forget to be a man - dingy. Get drunk, rain hell, and go naked! As always, Butch

THE SPACE AGE

. . . . . as the years flow through the fountain of time and eons come and go, new ages are ushered in and out. Ours is the Space Age - an era of rockets, count-downs, launching pads and missile men; an era of television, political platforms, international crises, and DNA. Ours is a world of increased knowledge and unending research for answers to old and new questions, and for new questions for which we can seek answers . . .

. . . our year has been a part of this age. We have helped to make it what it will be remembered for, long after we are gone. It has been a year of studies and athletics, a year of happiness and sadness, of crowds and loneliness, of doubts and firm resolutions, of new, untried methods and old, accepted ones . . .

The count-down of events which composed our year has been long. We have widened our orbit to include many functions, and many stars have come to their fullest and brightest this year. As the space program of our country has grown in size, technical information, and performance, so we have increased in number, knowledge and maturity . . .

We have pressed forward and upward toward the ultimate mark of achievement. We have "shot for the Moon"--and if we didn't make it, we at least tried . . . no one can hold our efforts against us . . .

Ours was a wonderful year, long to be remembered . . . . .

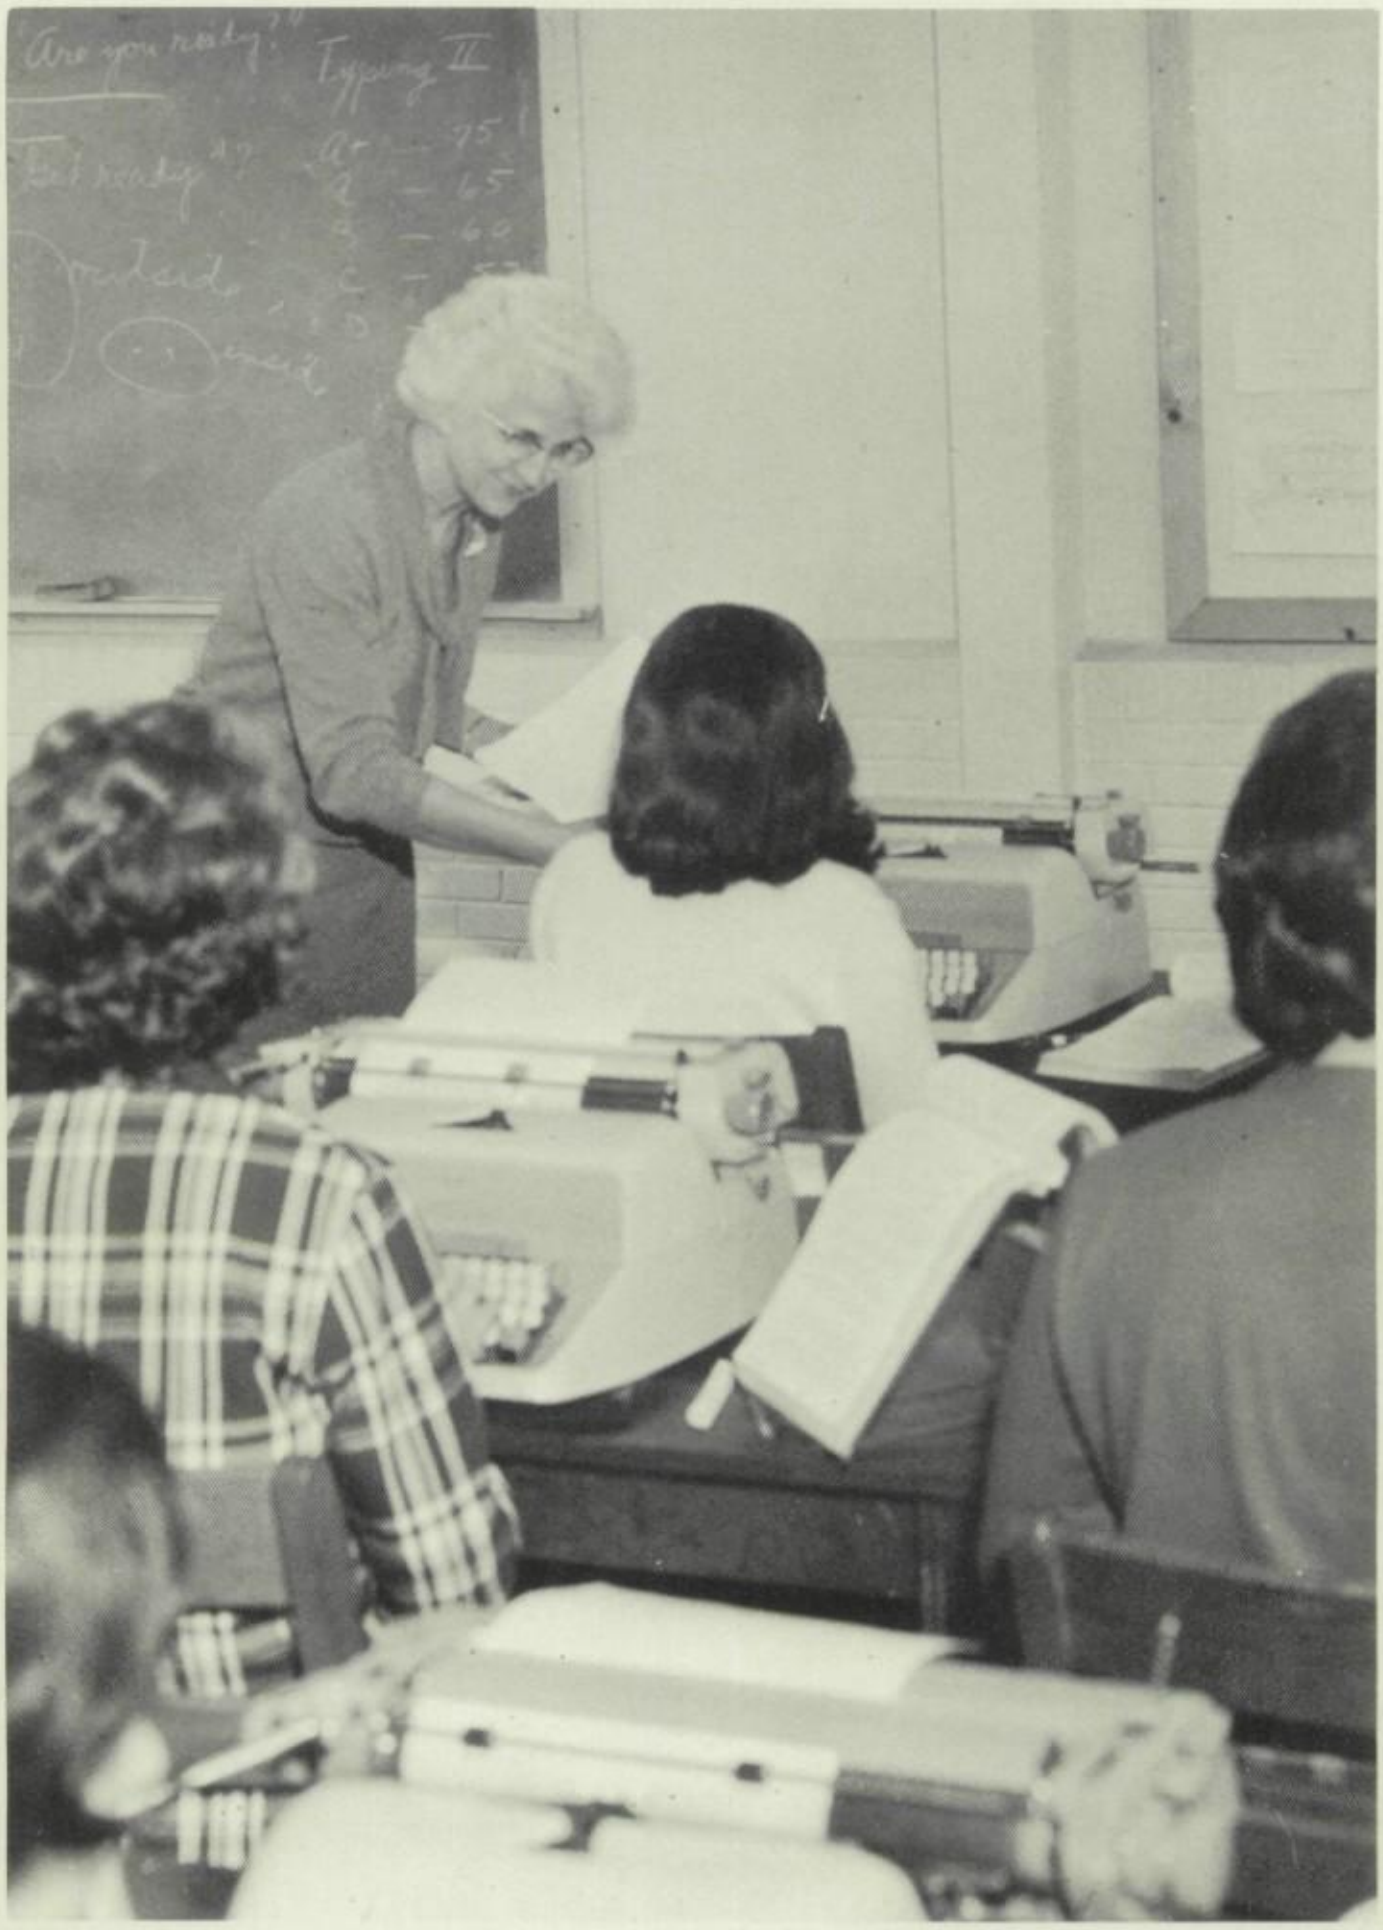
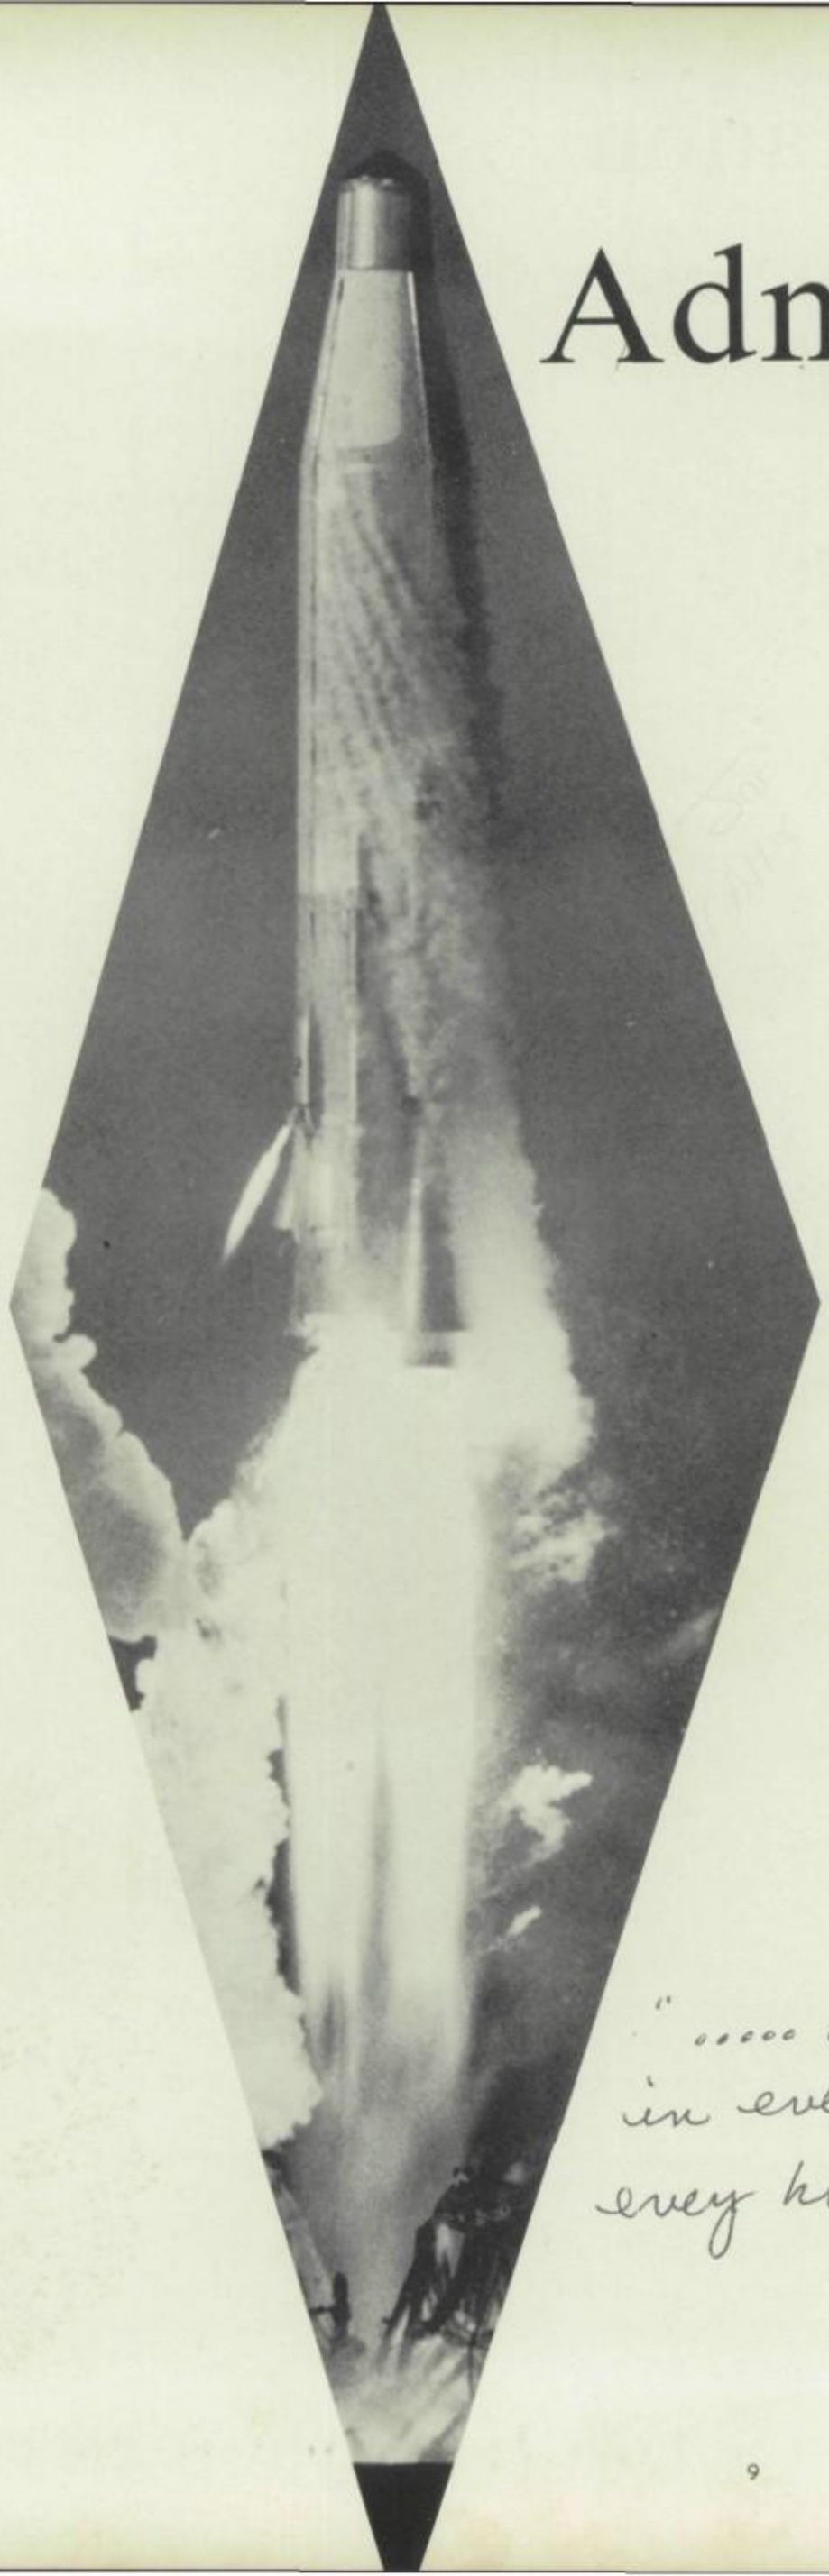
Dedication . . .



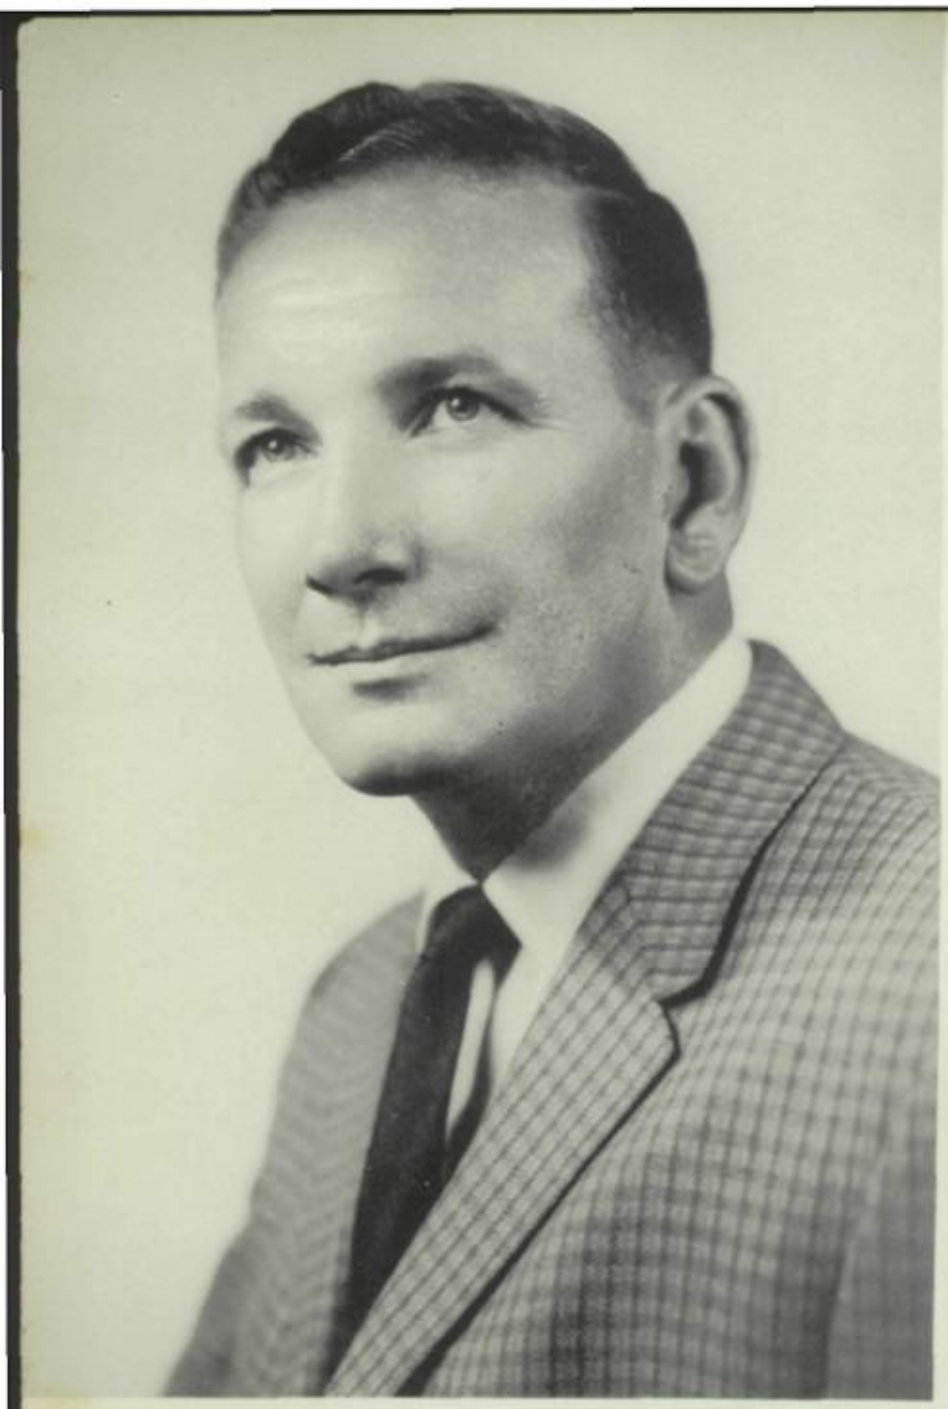
We, the students of Lyman High School, dedicate our 1965 "Greyhound" to Miss Martha E. Thompson. For her nine years at our school and her faithful efforts for the best education possible we are grateful, and we wish to recognize her outstanding work.



Administration

A spacecraft needs someone to be at the controls and to guide the ship in the right direction. The crew must be well trained and proficient in their individual tasks for a successful journey to result. The guiding or managing force in our school is the administration. All of the different functions, organizations, and purposes of our educational system are regulated and balanced by this small body of people. Through their efforts we receive a more meaningful education which serves as a launchpad for our lives.

"..... and I promise; a car in every garage and 5K-70 in every home.



R. T. Milwee

The students of Seminole County are fortunate in having Mr. Milwee as our county superintendent again this year. Our school system and policies have been greatly improved because of his experiences and dedication to the best education possible.

Carlton D. Henley

A rocket will not function correctly and chances of failure are much greater if there is no guiding authority or control. Our principal, Mr. Henley, has done much to lead our school to success. His administrative ability and his ability to see a problem, to face it, to understand the nature of the problem, and to solve it have helped to improve Lyman measurably. May our school continue to improve in all aspects next year as it has this year under our principal.

Mr. James I. Bowers - Guidance Counselor

The most important single factor which contributes to the success of a manned space flight is the training the crew receives. Once they leave the ground, they are almost entirely on their own. Their fate relies on their knowledge and skills they have acquired during training. The same applies to students. We receive guidance, training, and the right courses to prepare us for the future, but once we leave here, our fate depends on how much we have learned and how we apply it to our life.

Mrs. Barcosky-Secretary

Our competent office staff, who are required to know something about everything, are always willing to lend a helping hand. Just as those in the blockhouse direct the activities of the missile site to keep things running smoothly, these workers add to the organization of our school.

Faculty

The guidance system of a rocket is composed of many mechanisms which act on the system at different times to propell it in one direction. Like this control system, each one of our teachers in some way helps to determine the direction our lives will take. We owe much to the dedicated teachers at Lyman.

"Education is a painful, continual and difficult work to be done by kindness, by watching, by warning, by precept, and by praise, but above all - by example."

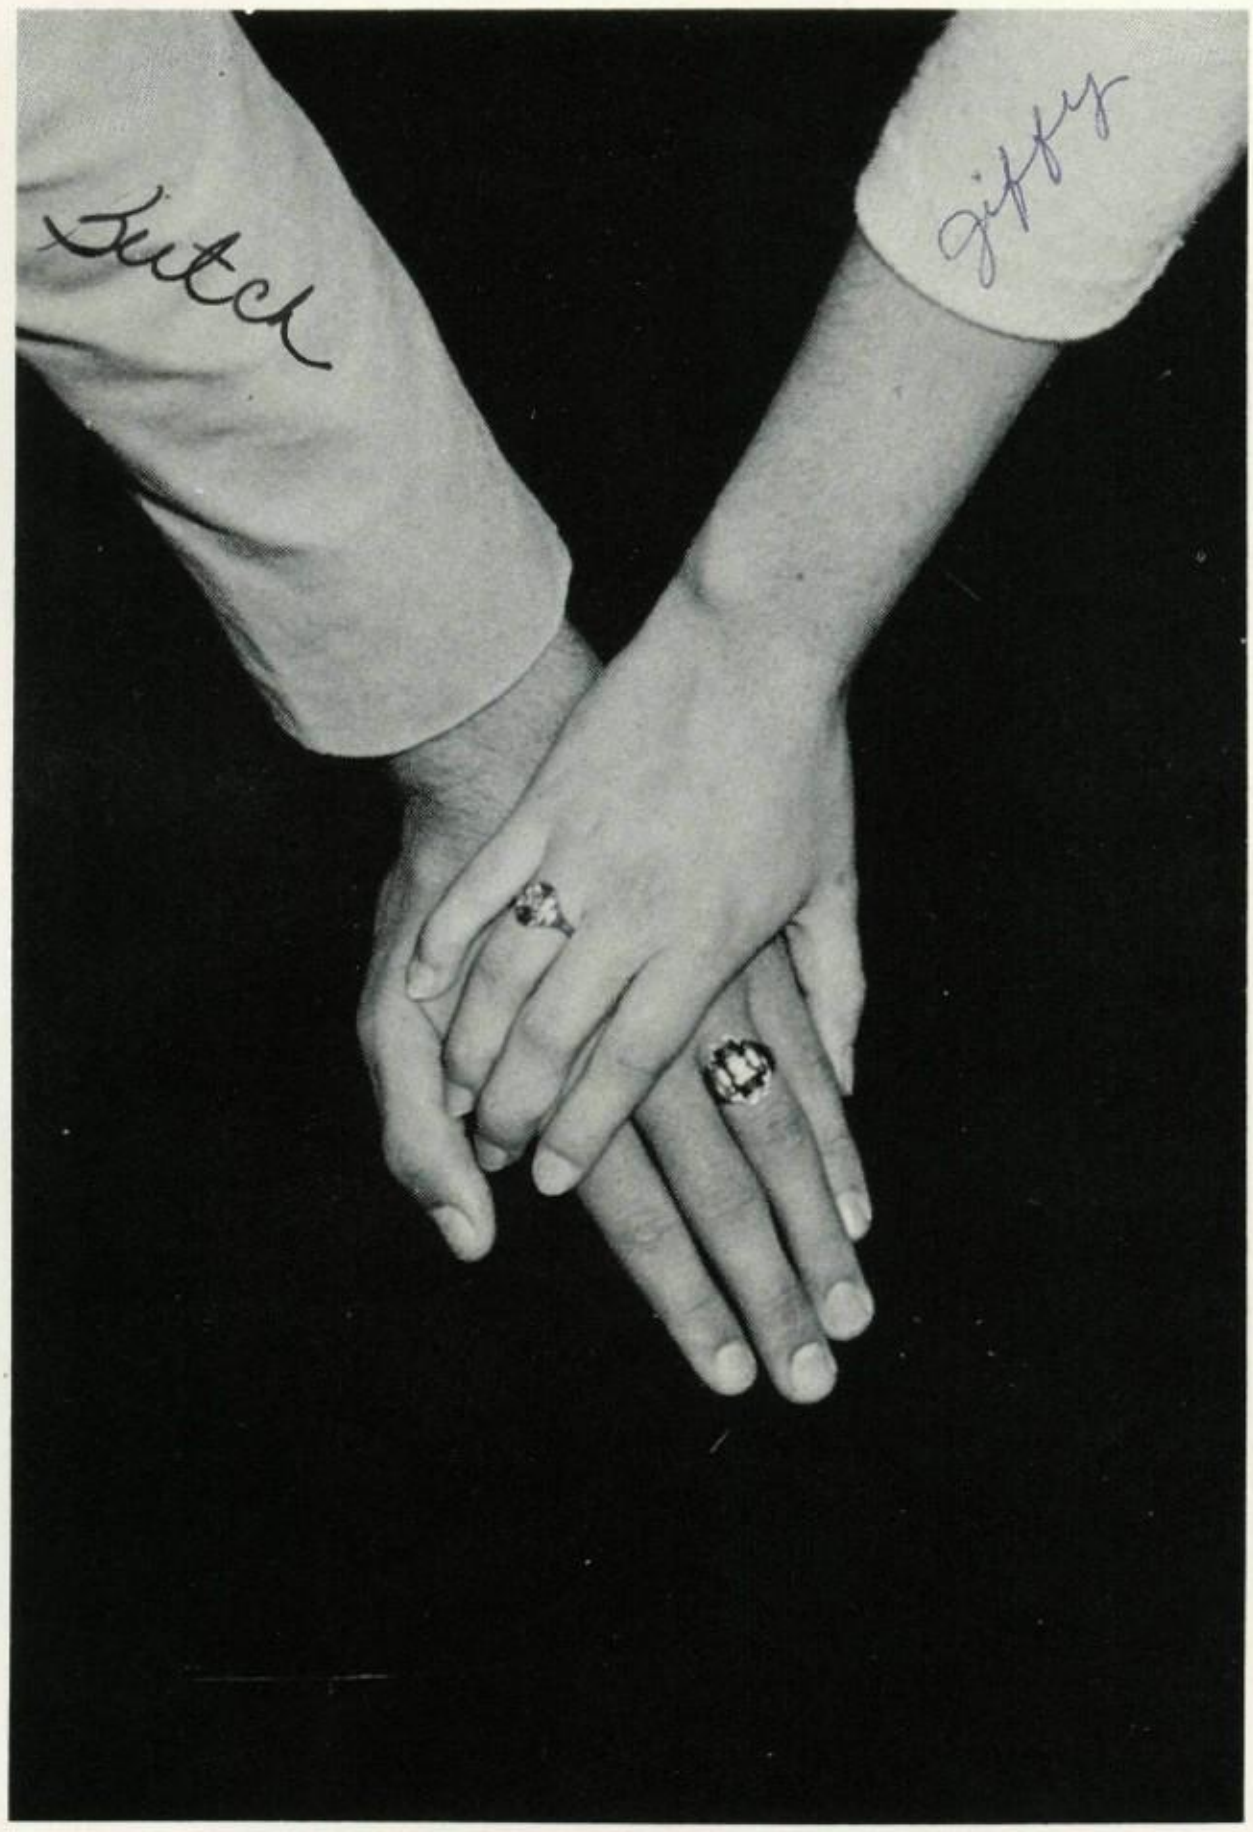
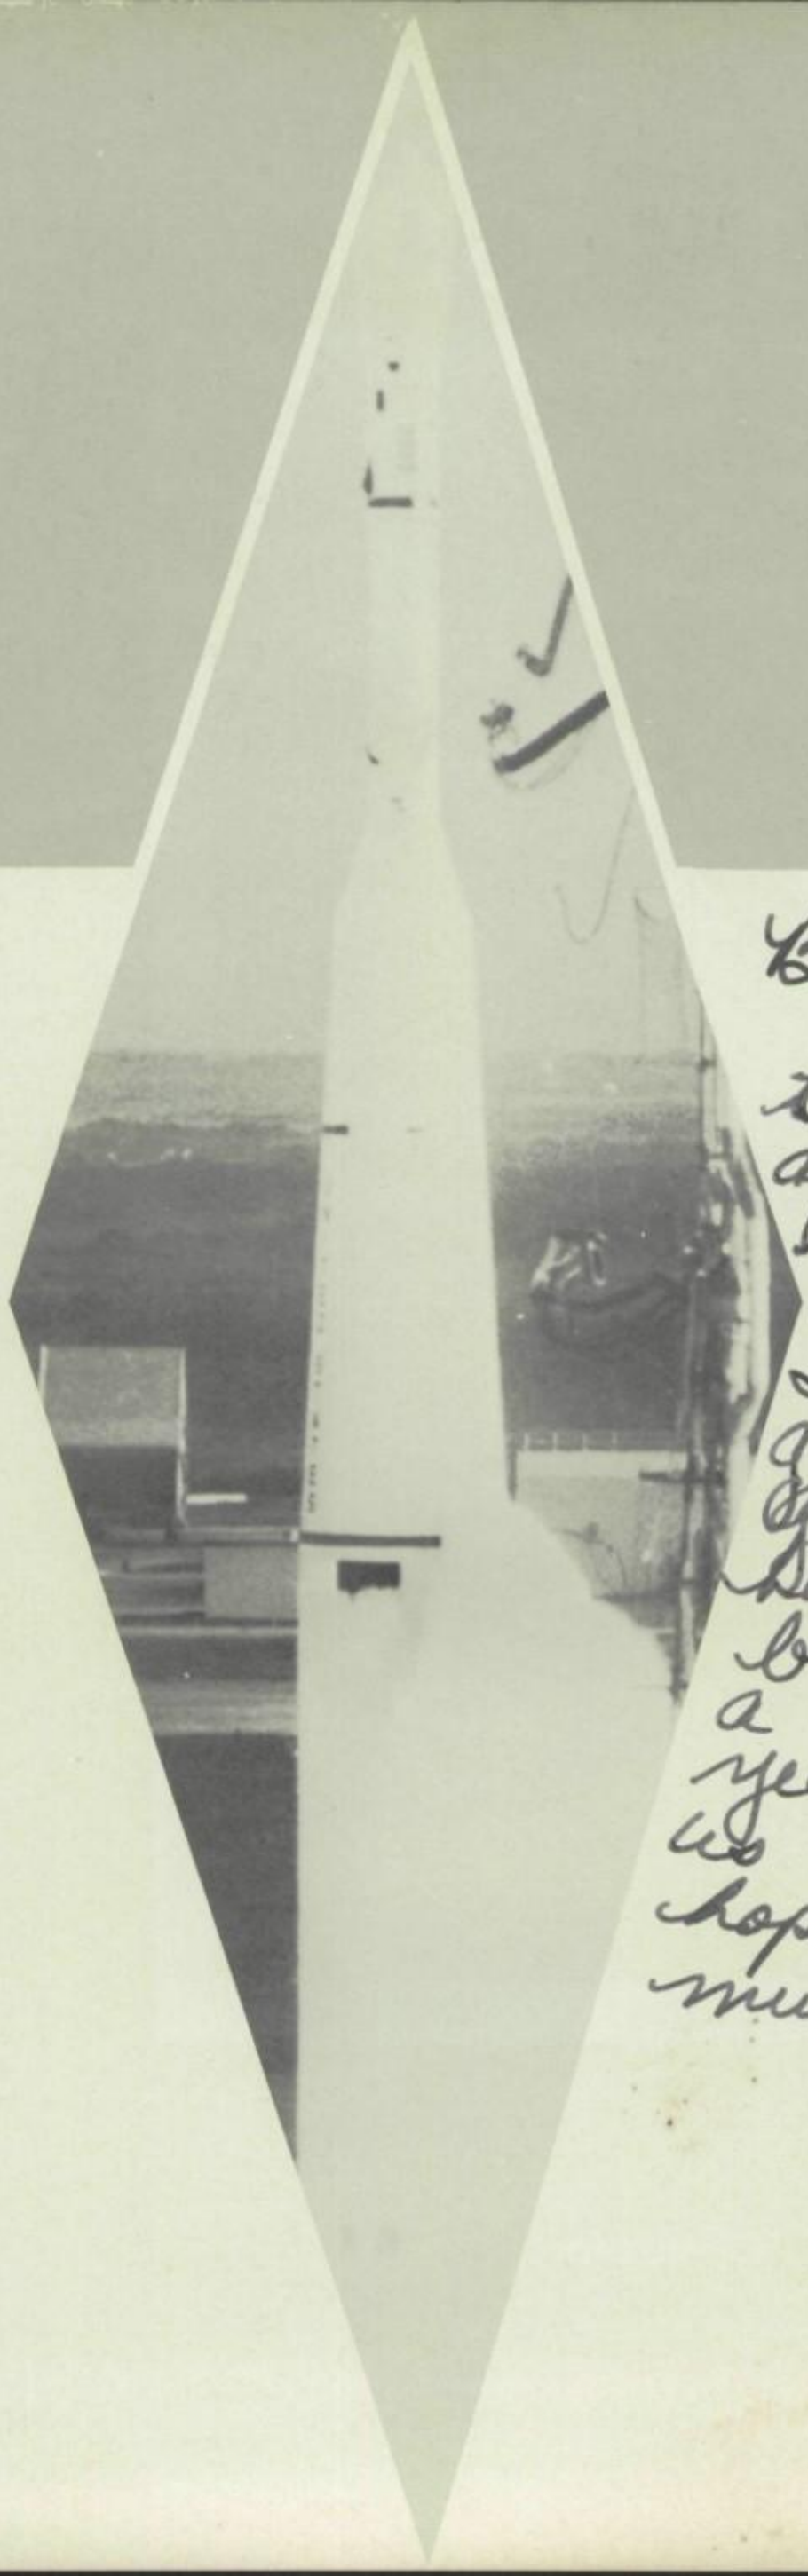
OUR RINGS



SENIOR CLASS MOTTO

Space is endless, but so are the dreams of man, and that which man can dream, man can do.

Class of '65



Bobbi,
Well, I guess we took care of things after all, huh? I'll never forget that crazy Opday on you! I'm glad we've gotten to be such good friends and I hope we always will be. We've both learned a lot about people this year which will help us in the future. I hope life brings you much happiness.

Always,

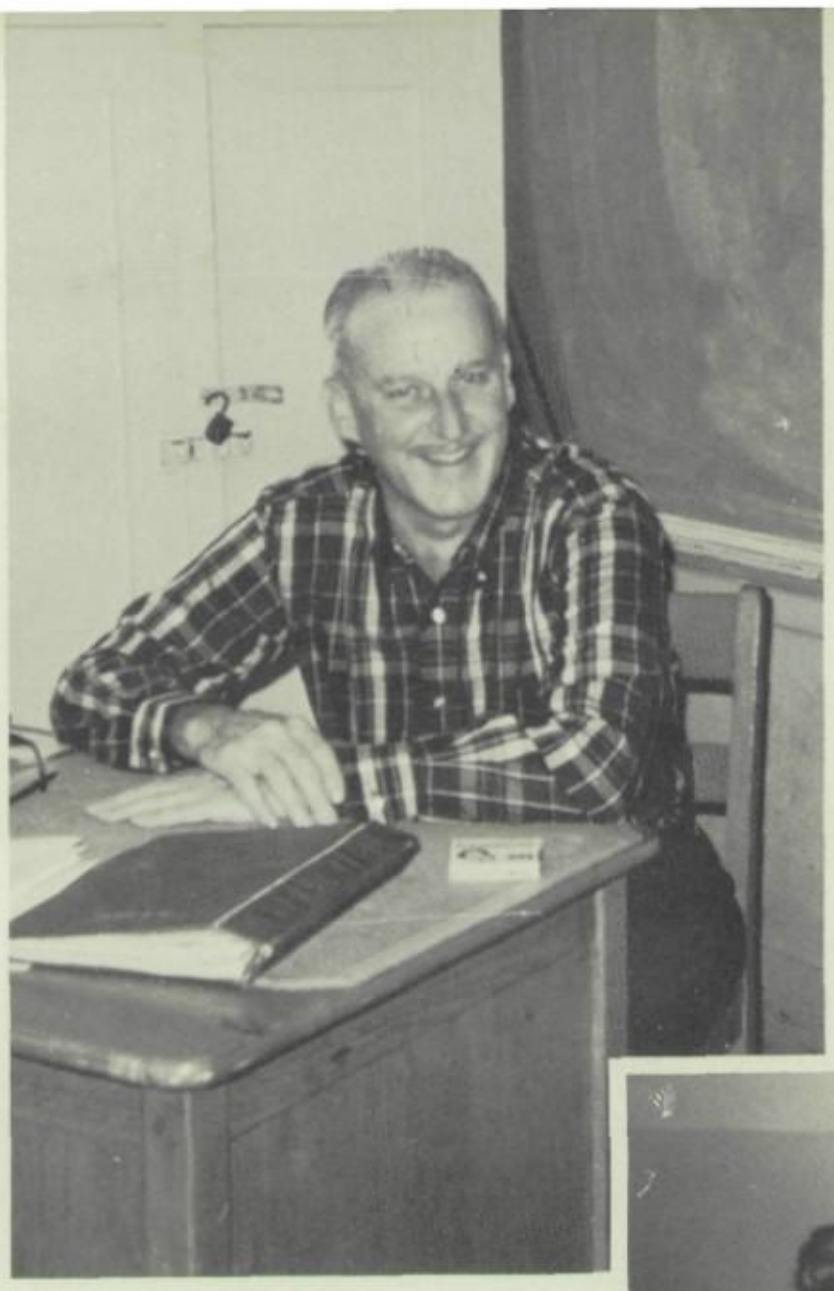
Organizations

Cooperation with others is a fundamental stage of maturity. The clubs and organizations of a school provide the opportunity for students to learn this important trait. They also supply that extra thrust needed to add interest and liveliness to the mechanics of learning. Most of the extracurricular activities at Lyman have been sponsored by our hard-working organizations.

STUDENT COUNCIL

right - DANNY CASSELBERRY, President
left - GARRY GUNTER, Vice President
center - MARY LOUISE HAINES, Treasurer
not pictured - SANDY TENNANT, Secretary



Mr. Scheibel has led the Student Council in a most rewarding and profitable year.

The Student Hand Book was the largest project of the Student Council this year.

The student body co-operating with the Student Council conducted a successful United Clothing Drive.

OFFICERS: LEFT TO RIGHT: President, Marcia Easterling; Vice President, Dorian Thermonos; Secretary, Elaine Haynie; Treasurer, Andrew Hinley.

Activities

The pageantry of Homecoming, the clapping hands and cheering voices of pep rallies, crowded dance floors, fund drives, formal proms with lace and satin -- these are some of the activities we remember from our high school days. We may forget the formula for the volume of a sphere; we probably won't even be able to recall the 16th Amendment years from now. But we will have memories. We shall remember the things we did and the things we didn't do; we will remember what we saw and what we felt or what we wanted to see and feel. Ours was a busy year full of things to do. Whether or not they had meaning depends on you.

Many Memories

"1964 HOMECOMING"

Miss Sandy Tennant was crowned Queen by Miss Dana Hall, the 1963 Homecoming Queen, in an exciting moment for all Lyman students.

A tense moment--the Homecoming Court is presented and the Queens identity is revealed.

Homecoming Queen, Sandy Tennant, with escort, Tom Mioducki, and Randy Griffith driving.

A miniature float parade brought in the 1964 Homecoming festivities with a note of hilarity. Pep rallies, skits, and the traditional bonfire were among the countdown of events.

The final stage was the blasting of Lakeview's hopes for a win with a 26-20 victory for the Greyhounds.

HOMECOMING COURT, left to right: Gail Lincoln, sophomore, escorted by Mike Ackerman; Lauree Deans, senior, escorted by Mike Bowen; queen Sandy, senior, with escort Tom Mioducki; Candy Potter, senior, escorted by Butch Baird; Barbara Ellis, senior, escorted by Terry Harmon; and Nancy George, junior, escorted by Jimmie Balmer.

Athletics

The flame of competition is within us all. It thrusts our ambition, struggles, practices, victories, and defeats up to a higher level. We have seen our athletes at practice and in real competition. Never have we failed to see an exhibition of fair play and true sportsmanship. As the rocket climbs gradually up and up to soar to other worlds, so we have risen to leave our past behind and to leave this year's accomplishments as another chapter in the story of our conquests.

SCRIBBLE SPACE

Bobbi, you old banger you:

It has been too good this year - we have really raised some Hell. I only wish the circumstances that brought us together could have been a little more pleasant. I'll always remember you as one of the most vivacious, bubbly, witty, and down-right nasty girls I have known. I hope we can always be the very best of friends. We'll have to raise some Hell next year and the year after that. This year has been the greatest for me and you have helped make it that way - Thank you. I wish you the very best in all you do and may your future find you happy because happiness is the key to life. You were a smashing success in "The Mouse" and I didn't mind a bit. God Bless and keep you always. Long Live Gloriana! STOP (and SK-70)

Forever and always.

Bobbi,

It seems as if the year is about to end and all the good and bad that went along with it. I will never forget what a comfort you have been to me so many times. Thank you. Remember one thing Bobbi, If you try for the best, you'll always know, if you get it or not, you tried. Set your sights above what you think you will obtain and maybe you will be satisfied sometime. You were "great" as Gloy, and I will NEVER forget it. If there is ever anything I can do for you let me know. Remember the games.

With you always, Gary

Bobbie, what can I say that hasn't been said between us. We've had some good times this year, & some bad ones. Bobbie, you've always been a good friend - I could always confide in you & find happiness & comfort in your friendship. I only wish people I will always know who one of the truth & not what's going to hurt or after I'm gone. I'm going to call you sometime, & we're going to go out to lunch or something. I feel sad over old times & feel sad every thing to be going. Best of luck always Bobbie - you've been a friend always, praying for you.

ACKNOWLEDGEMENTS

WE WISH TO EXPRESS OUR GRATITUDE FOR THE ASSISTANCE FROM THE FOLLOWING INDIVIDUALS AND FIRMS IN HELPING TO MAKE THIS YEARBOOK POSSIBLE:

Mr. James Pirotte, for the dramatic aerial photographs of Lyman High.

Mr. and Mrs. Harry Williamson, for the Rocket Photographs, and for assisting greatly with the plans for the trip to Cape Kennedy.

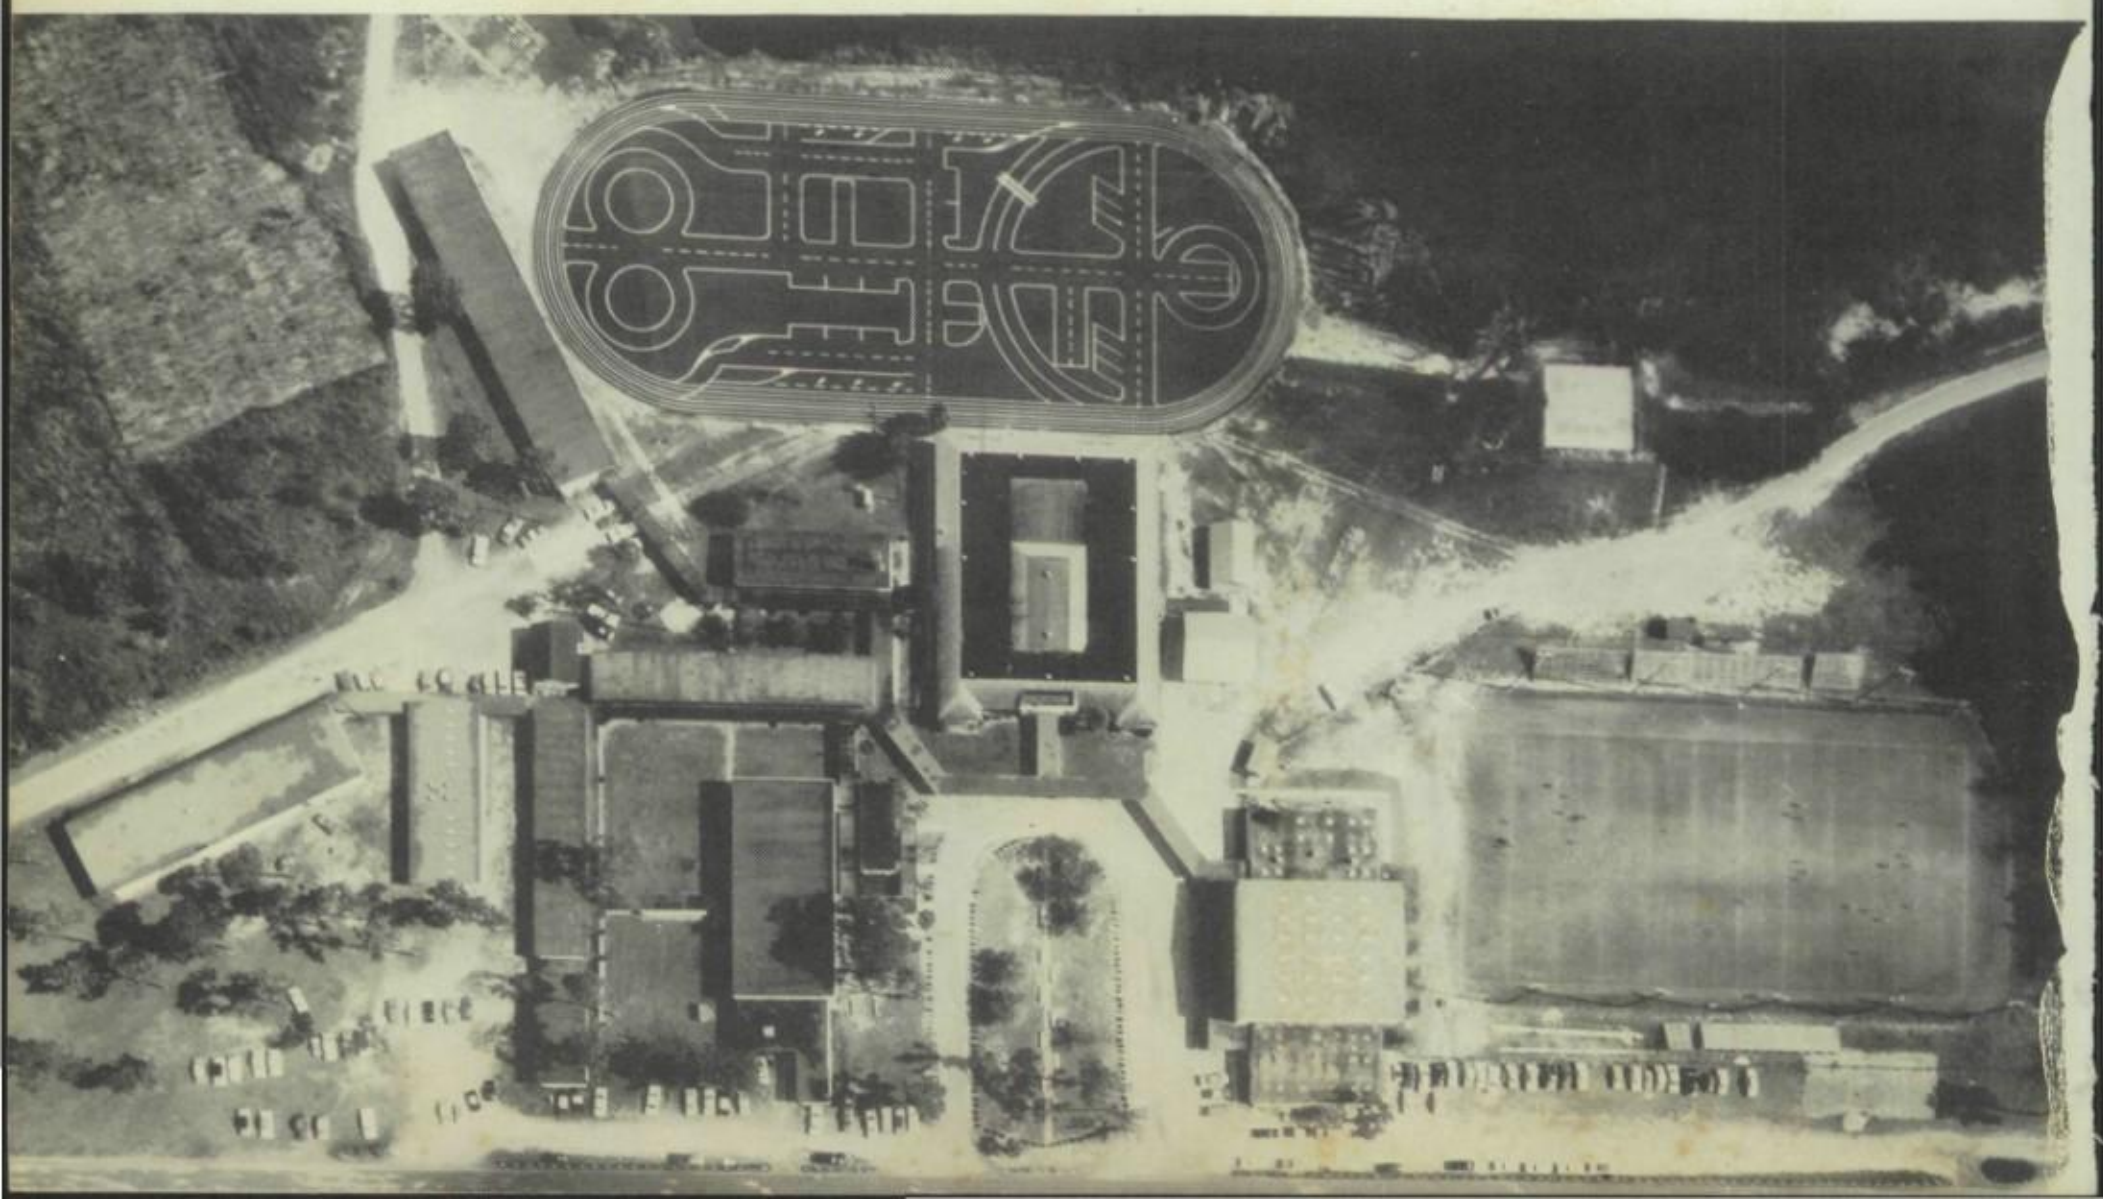
Mrs. Elizabeth Bothell, for helping with student picture identification and other chores too numerous to mention.

Mr. W. Henry Decker, Protocol Officer, National Aeronautics and Space Administration at Merritt Island (Cape Kennedy), for arranging and conducting the tour of the space program facilities at the Cape, and for providing pictures and official information to the Senior Superlatives and other participating students.

Robson Sporting Goods, in Sanford, for providing the boat used in the color photography on the end sheets.

The Orlando Planetarium at Loch Haven, for assistance in obtaining the Senior Superlative pictures.

A SPACE AGE LOOK AT LYMAN



Bobbi,
Really and truly I'll be glad to get away from you after this year; (I just wanted to let you know how I really feel). Seriously, I'm very glad we have become friends and I'll always remember the good times we've had. Good luck with school next year (I'm sure you will really need it) and all the best wishes you do.

Love
NANCY

Bobbi,
It has truly been a pleasure to know such a wonderful person as you. Our Senior Year is as good as over now but I'll always remember the people and friends I knew at "dear old Lyman". I'll never forget how good you were as Gloriana in "The Mouse That Roared". I wish you the best of luck in all that you do. Be good (HA! That's a joke. Bobbi be good?!) As always,

Elaine

CLASS OF "65"

Bobbi,

It's really been great knowing you. You're a very sweet girl and I wish you the very best in life. I hope we can become very [redacted]d friends in the future.

Be Good and May God Bless you.

Love Ya'

Lynn
